City of Goldsboro	200 North Center Street Goldsboro, NC 27530	Local Government	Transportation, Housing and Urban Development (T-HUD)	Department of Housing and Urban Development; Economic Development Initiative (EDI)	\$250,000	Goldsboro's Herman Park Center Building Demolition Project	The City of Goldsboro would use this funding to demolish and dispose of the Herman Park Building. The building was closed due to contamination issues, specifically mold. The City has designed a new, shovel-ready Herman Park Center to replace this facility.	<a href="#">Hyperlink</a>
City of Raleigh	222 West Hargett Raleigh, NC 27602	Local Government	Interior, Environment, and Related Agencies	Environmental Protection Agency (EPA); State and Tribal Assistance Grants (STAG)	\$700,000	Cottages of Idlewild Stormwater Infrastructure	The City of Raleigh would use these funds to install stormwater infrastructure within an affordable homeownership development in downtown Raleigh referred to as the Cottages of Idlewild.	<a href="#">Hyperlink</a>
City of Raleigh	222 West Hargett Raleigh, NC 27602	Local Government	Transportation, Housing and Urban Development (T-HUD)	Department of Transportation; Transit Infrastructure Projects	\$750,000	Raleigh's Tarboro Road Proposal	The City of Raleigh is constructing a Bus Rapid Transit project on Tarboro Road. Funds requested for this project would be used to make streetscape improvements to enhance the connection from the local HBCU, St. Augustine's while prioritizing public safety. Specifically, funds would be used for 1) sidewalk improvements to enhance pedestrian safety, 2) accessibility improvements, 3) speed mitigation improvements to enhance bicycle, pedestrian, and vehicular safety, 4) street redesign to improve street alignment and safety through the addition of a public plaza/pedestrian refuge to address existing pedestrian and vehicular conflicts, and 5) improvements to lighting to enhance visibility and public safety.	<a href="#">Hyperlink</a>
GoTriangle	4600 Emperor Blvd. Durham, NC 27703	Local Government Entity	Transportation, Housing and Urban Development (T-HUD)	Department of Transportation; Transit Infrastructure Projects	\$1,000,000	GoTriangle Fleet Upgrade Program	GoTriangle would use this funding to purchase 16 zero-emission support fleet vehicles to replace vehicles that have exceeded their useful life. The project will include new electrical infrastructure including transformers, control panels, and conduit to support the installation of four Type 2 DC-Fast chargers. GoTriangle's support vehicle fleet is critical to supporting maintenance, responding to incidents, and overseeing transit service within GoTriangle's 1,600 square mile service area.  GoTriangle operates a variety of regional bus services, paratransit, ride matching, vanpool, and micro-transit service. New plug-in electric support vehicles will ensure that GoTriangle can continue to provide safe and reliable transit service meeting the needs of residents and supporting the transit goals of Wake County.	<a href="#">Hyperlink</a>
I95/I40 Crossroads of America Economic Development Alliance	600 South Magnolia Avenue Dunn, NC 28334	Local Government Entity	Transportation, Housing and Urban Development (T-HUD)	Department of Housing and Urban Development; Economic Development Initiative (EDI)	\$5,000,000	Advanced Manufacturing and Biotech Training Center Equipment Project	The I-95/ I-40 Alliance is a collaborative effort between several small municipalities (Town of Four Oaks, Benson, and the City of Dunn) in southern Johnston and eastern Harnett County to enhance the economic prosperity of the region through quality job creation and advanced technical training opportunities. The Alliance would use these funds to acquire equipment for an advanced manufacturing training center and a Biotech training center. This would assist countless industries and help employ thousands of people over its duration.	<a href="#">Hyperlink</a>
NC State University	20 Watuga Drive, Holladay Hall Raleigh, NC 27695	Public College in the North Carolina College System	Agriculture, Rural Development, Food and Drug Administration, and Related Agencies	Department of Agriculture; Agricultural Research Service; Buildings and Facilities	\$6,500,000	Central Crops Research Station	North Carolina State's Clayton research station is the main research facility in North Carolina for the USDA-ARS corn and soybean research as well as the cooperative research to improve small grains program. Facilities and infrastructure funding would be devoted to improving the research capacity of the soybean and grains group by making the following improvements: 1) grain fields irrigation upgrades and replacement, 2) seed handling building renovation and seed drying storage equipment, 3) input storage facility renovation and improvement, and 4) enhanced grain drying and storage equipment.	<a href="#">Hyperlink</a>

Town of Apex	73 Hunter Street Apex, NC 27502	Local Government	Interior, Environment, and Related Agencies	Environmental Protection Agency (EPA); State and Tribal Assistance Grants (STAG)	\$1,970,800	Apex's Cash Corporate Center - Sewer Interceptor (Middle Creek Outfall)	The Town of Apex would use this funding to complete the Cash Corporate Center Sewer Interceptor. The Cash Corporate Center Sewer Interceptor Project includes approximately 2,000 linear feet of 12" PVC gravity sewer line, extending from the existing Pinnacle Park pump station to the Regional Middle Creek #2 pump station that is currently under construction. This project is part of the adopted Master Sewer Plan to construct a gravity sewer main extending through the Cash-Perkins property, connecting to the future Upper Middle Creek Gravity Interceptor and the proposed Middle Creek Gravity Interceptor and regional pump station for Horton Park. This gravity sewer will allow both the Cash-Perkins and Pinnacle Park Pump Stations to be taken offline resulting in more efficient service delivery and reduced maintenance cost for public utilities.	<a href="#">Hyperlink</a>
Town of Benson	303 East Church Street Benson, NC 27504	Local Government	Interior, Environment, and Related Agencies	Environmental Protection Agency (EPA); State and Tribal Assistance Grants (STAG)	\$3,680,000	Benson Water Infrastructure Improvements	The Town of Benson would use this funding to execute two phases of its water system improvement plan. Specifically, this funding will be used for pipe repairs and water system upgrades due to the expiration of the existing pipes' useful life spans. This project will fund water main piping, gate valves and boxes, steel encasement, connection to the existing water line, tapping sleeves and valves, new fire hydrants, curb and gutter repair, erosion control, and other items.	<a href="#">Hyperlink</a>
Town of Cary	316 North Academy Street Cary, NC 27513	Local Government	Interior, Environment, and Related Agencies	Environmental Protection Agency (EPA); State and Tribal Assistance Grants (STAG)	\$5,000,000	Carry's Walnut Creek Stormwater Management Project	The Town of Cary would use this funding to implement its Walnut Creek Stormwater Management Project. The project aims to improve stormwater management and water quality in the Walnut Creek watershed from Downtown Cary to NE Maynard Road. The project aims to reduce localized flooding, increase vegetative cover and habitat restoration, and improve options for the construction of a paved bicycle and pedestrian trail along the project corridor. Specifically, the requested funds will be used to design streambank restoration and revegetation work and implement the streambank restoration work. The project will improve stormwater control measures, reversing adverse environmental impacts to water quality and reducing flooding. Reducing flooding in the area through stormwater management practices will enhance the quality of life and safety for residents in the neighborhoods in the project area and beyond.	<a href="#">Hyperlink</a>
Town of Fuquay-Varina	134 North Main Street Fuquay-Varina, NC 27526	Local Government	Interior, Environment, and Related Agencies	Environmental Protection Agency (EPA); State and Tribal Assistance Grants (STAG)	\$2,000,000	Fuquay-Varina's 1.0 MG Elevated Tank Storage Project	The Town of Fuquay-Varina would use this funding for a new 1.0 million gallon (MG) elevated water storage tank. The Town currently has 700,000 gallons of water storage in two elevated storage tanks and has determined that to maintain the integrity of its water distribution system and provide quality water services to its constituents, a new 1.0 MG elevated storage tank is needed. The purpose of the elevated storage tank will be to increase elevated storage in a current low-pressure area, which will improve and maintain water quality, quantity, and pressure throughout the community's residential and commercial areas with higher elevations. In addition, the new storage tank will increase overhead storage in the new pressure zone, maintain emergency water storage supply, and provide equalization volume during peak demands when water usage is high.	<a href="#">Hyperlink</a>

Town of Garner	900 7th Avenue Garner, NC 27529	Local Government	Transportation, Housing and Urban Development (T-HUD)	Department of Housing and Urban Development; Economic Development Initiative (EDI)	\$1,100,000	Garner's Meadowbrook Dam and Stream Improvements	The Town of Garner would use this funding for the breach and partial removal of a deteriorated dam and lake and stream restoration improvement at Meadowbrook Park. The deteriorated condition of the dam poses a life safety concern; an unplanned breach would result in damage to property in an adjacent residential neighborhood.	<a href="#">Hyperlink</a>
Town of Holly Springs	128 South Main Street Holly Springs, NC 27540	Local Government	Interior, Environment, and Related Agencies	Environmental Protection Agency (EPA); State and Tribal Assistance Grants (STAG)	\$3,000,000	Holly Springs Water Conveyance System	The Town of Holly Springs requires new infrastructure to meet future water demands and provide water security through redundancy and resiliency. The Town has partnered with Chatham County, City of Sanford, Town of Pittsboro, and Town of Fuquay-Varina to increase Sanford's water treatment capacity by 18 MGD, of which Holly Springs would be allocated 4 MGD. In order for the Town's water system to access the water allocation, a conveyance system will be built from the Sanford plant to Wake County.	<a href="#">Hyperlink</a>
Town of Selma	114 North Raiford Street Selma, NC 27576	Local Government	Commerce, Justice, Science, and Related Agencies	Department of Justice; State and Local Justice Assistance; Byrne Justice Assistance Grant (JAG)	\$330,000	Selma's Police Equipment Technology Upgrades	The Town of Selma would use this funding to complete police equipment and technology upgrades. Specifically, the funding would be used to purchase 30 body-worn cameras and support equipment including chargers, carriers, 16 in-car cameras (including installation), digital storage equipment, and funding for one staff member for one year to set up and maintain all video evidence.	<a href="#">Hyperlink</a>
Town of Smithfield	913 South Church Street A Smithfield, NC 23430	Local Government	Commerce, Justice, Science, and Related Agencies	Department of Justice; State and Local Justice Assistance; Byrne Justice Assistance Grant (JAG)	\$124,000	Smithfield Body Camera Initiative	The Town of Smithfield would use this funding to allow the Smithfield Police Department to purchase 45 body cameras and data storage. The importance of having and retaining this type of data helps to create and attain professional and accountable law enforcement departments throughout the state, as well as assist with ongoing and recruit office training.	<a href="#">Hyperlink</a>
Wake County	330 South Salisbury Street Raleigh, NC 27601	Local Government	Commerce, Justice, Science, and Related Agencies	Department of Justice; State and Local Justice Assistance; Byrne Justice Assistance Grant (JAG)	\$878,000	Wake County Sheriff Department Technology Project	Wake County Sheriff's Department would use this funding to purchase body-worn cameras for their Detention Division, in-car cameras for their Patrol and Communications Division, and radars for their Special Operations Division. Specifically, the Sheriff's office would purchase 200 body-worn cameras, including cameras and accessories, for detention officers, additional storage, and officer training, 30 in-car cameras, including cases and accessories, additional storage, and officer training, and 60 radars with the goal of reducing the number of traffic-related fatalities in Wake County.	<a href="#">Hyperlink</a>
